Description of Transcript of Undergraduate Students & GPA Calculation:

1. All courses are divided into two categories: compulsory courses and optional courses. Compulsory courses include general students' courses and core courses.
2. Credits can be obtained when students' test scores are above 60.
3. All compulsory courses are graded according to one-hundred-point system. Optional courses can use two grading systems: one-hundred-point system or five-grade-scoring system. Five grades refer to excellent (A), good (B), average (C), pass (D) and fail (F).
4. The one-hundred-point scores are converted into grades as follows:

Scores	100-90	89-80	79-70	69-60	≤59
Grades	Excellent	Good	Average	Pass	Fail

5. Compulsory courses' test scores are used to calculate the GPA. The formula is:

$$\text{GPA} = \frac{\sum (\text{Score of the Course} \div 20 \times \text{Credit of the Course})}{\sum \text{the Credits}}$$
